

## RECOMMENDED CHILD SEATS

Child size/age	Recommended seat
Groups 0 and 0+	Britax/Römer Baby Safe Plus
Group I	Britax/Römer Duo Plus
Group II and III	Britax/Römer Kid Plus

## CHILD RESTRAINT CHECK LIST

Every time a child travels in the vehicle, observe the following:

- Use appropriate child restraints.
- Carefully follow the instructions provided by the manufacturer of the restraint system.
- Adjust the harnesses for every child on every journey.
- Make sure that all slack is removed from the adult seat belt.
- Always attach the top tether when installing an ISOFIX seat.
- Always check the security of the child restraint.
- Do not dress a child in bulky clothing, or place any objects/padding between the child and the restraint.
- Regularly check the fit and condition of child restraints. If the fit is poor, or wear/damage is visible, replace the restraint immediately.
- Set a good example - always wear your seat belt.
- For child seats fitted with a support leg, adjust the leg so that it rests firmly on the floor.

- For some child seats, it may be necessary to remove the head restraint to make sure of a stable fit. Always refit a removed head restraint after the child seat is removed.

**Child restraint anchorages are designed to withstand only those loads imposed by correctly fitted child restraints. Under no circumstances are they to be used for adult seat belts, harnesses, or for attaching other items or equipment to the vehicle.**

## BOOSTER SEATS

In a situation where a child is too large to fit into a child safety seat, but is still too small to safely fit the 3-point belt, a booster seat is recommended for maximum safety. Follow the manufacturer's instructions for fitting and use, then adjust the seat belt to suit.

## INSTALLING ISOFIX CHILD RESTRAINTS

**Do not attempt to fit ISOFIX restraints to the centre rear seating position. The anchor bars are not designed to hold an ISOFIX restraint in this position.**

**If the restraint is not correctly anchored, there is a significant risk of injury to the child in the event of a collision or emergency braking.**
