STORAGE COMPARTMENTS

Storage compartments

Make sure any items stored in the vehicle are secure and cannot move. If the vehicle is involved in an accident, subject to sudden braking or a change of direction, loose items can cause serious injury.

Do not drink or use the cup holders when driving.

1. Front cup holders: Slide the panel open to access. Press and release to close.
2. Glovebox.
3. Centre console storage/cool box.

   Note: *The rubber mat at the bottom of the centre console is designed to hold CD cases.*
4. Cool box: Switch ON or OFF using the switch on the inside of the front lip. There is a short delay between pressing the switch and illumination of the indicator.
   The cool box works best when the cooling tray is used.

   Note: *The cool box only operates with the ignition switched ON.*

   Note: *The cool box is not a refrigerator and will not reach the low temperatures attained by a refrigerator. Repeated or prolonged opening of the cool box will reduce its ability to maintain temperature.*

   The cool box should be switched OFF when it is not needed, to preserve battery charge.
5. Rear seat cup holders: Fold the centre armrest down.
6. Map pockets.
