3. Disconnect the electrical connector and remove the unit from the vehicle. Place face down on a flat surface covered in soft material, to prevent damage.

REAR FOG LAMP BULB REPLACEMENT

Always find a safe place to stop, off the highway and away from traffic.

Apply the Electric Parking Brake (EPB) and engage Park (P).

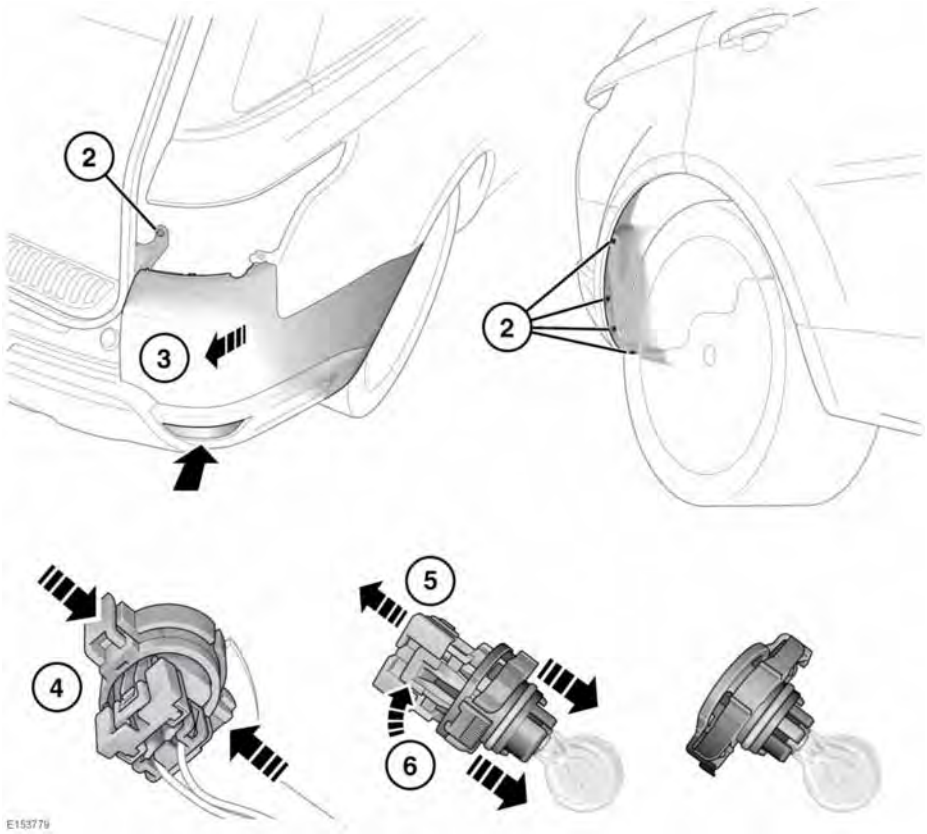

Switch on the hazard warning lamps.

Place a warning triangle at a suitable distance behind the vehicle, facing towards oncoming traffic.

Disconnect any trailer/caravan from the vehicle.

Make sure all passengers and animals, are out of the vehicle and in a safe place away from the roadside.

If the vehicle has been driven recently, do not touch the exhaust system components until they have cooled.

Access to a rear fog lamp housing is from above and behind the rear bumper. The bulb holder is a black plastic unit that incorporates the bulb.

Set the Air suspension to the Off-road height position, for increased access to the bumper fixings. See **133, OFF-ROAD HEIGHT**.

1. Remove the rear lamp unit. See **261, REAR LAMP REMOVAL**.
2. Remove the 5 fixings from the bumper.
3. Gently and evenly pull the bumper to release the 8 securing clips from the wing panel.

   Do not use excessive force, as this may cause damage to the vehicle.

   Note: *Only limited movement is required to allow access to the rear of the fog lamp unit.*
4. To remove the bulb holder, press in the outer wings on the black plastic unit and pull the holder free of the housing.
