The functioning of cardiac pacemakers or hearing aids may be impaired when the phone is in use. Check with a doctor or manufacturer whether any such devices you or your passengers are using, are sufficiently protected against high-frequency energy. The Health Industry Manufacturers' Association recommends that a minimum separation of 15 cm (6 in) is maintained between a wireless phone antenna and a pacemaker, to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research by, and recommendations of, Wireless Technology Research.

Always stow your phone securely. In an accident, loose items can cause injury.

TELEPHONE COMPATIBILITY

For a list of compatible **Bluetooth®** wireless technology devices, please access the Land Rover website at: **www.landrover.com**. In the **Ownership** section, refer to **InControl and Bluetooth**.

Note: *The **Bluetooth** wireless technology devices listed, have been tested for compatibility with Land Rover vehicles. Performance varies, based on the phone's software version, battery condition, coverage, and your network provider. Phones are warranted by their manufacturer, not Jaguar Land Rover Limited.*

PAIRING AND CONNECTING USING THE PHONE

Note: *The process of pairing and connecting with the vehicle, from your phone, will vary depending on the type of phone used.*

1. Switch the ignition on and make sure that the Touch screen is active.
2. From the **Phone** menu, select **Change phone**.
3. From the **Phone device list** menu, select **Search new**.
4. Select the **Device to vehicle** option.

   Note: *The vehicle's **Bluetooth®** wireless technology system is discoverable for only three minutes.*
5. Using your phone, search for **Bluetooth** wireless technology devices.
   On some phones, this is referred to as a new paired device. See the phone's operating instructions for further information.
6. When the vehicle's **Bluetooth** wireless technology system is discovered, follow the on-screen instructions. Select **Yes**, when prompted, to confirm the pairing.
   Either the phone or the vehicle's system will ask for a PIN (Personal Identification Number). When prompted, enter a PIN of your choice and select **OK** to confirm.
7. Enter the same PIN into the other device.
8. Once the phone is paired and connected to the system, a confirmation message will be displayed before switching to the **Digit dial** screen.
