SECTION 1 Introduction

OWNER'S HANDBOOK

This handbook covers all current versions of the Land Rover Defender 90 and, together with the Service Portfolio, provides all the information you need to derive maximum pleasure from owning and driving your new vehicle.

For convenience, the handbook is divided into sections, each dealing with a particular aspect of driving or caring for the vehicle. Sections are listed on the contents page and you will find it worthwhile to take a little time to read each one, and get to know your Defender as soon as you possibly can. Remember, the more you understand before you drive, the greater the satisfaction once you are seated behind the steering wheel.

Section Contents	Page
Service Portfolio	3
Warning labels	3
Vehicle identification number	4
Anti-theft precautions	4
Breakdown safety code	5

Land Rover operates a policy of constant product improvement and, therefore, reserves the right to change specifications without notice at any time. Whilst every effort is made to ensure complete accuracy of the information in this handbook, no liabilities for inaccuracies or the consequences thereof can be accepted by the manufacturer or the dealer, except in respect of personal injury caused by the negligence of the manufacturer or the dealer.

Introduction

SERVICE PORTFOLIO

The Service Portfolio book included in your literature pack, contains important vehicle identification information, details of your entitlement under the terms of the Land Rover warranty, as well as useful consumer advice.

Most important of all, however, is the section on maintenance. This outlines the servicing requirements for your vehicle, as well as incorporating the service record slips, which the dealer should sign and stamp to certify that routine services have been carried out at the recommended intervals.

WARNING

Safety warnings are included in this handbook. These indicate either a procedure which must be followed precisely, or information that should be considered with great care in order to avoid the possibility of personal injury or serious damage to the vehicle.

WARNING LABELS ATTACHED TO THE VEHICLE

Warning labels attached to your vehicle bearing this symbol mean: DO NOT touch or adjust

components until you have read the relevant instructions in the handbook.

Warning labels showing this symbol indicate that the ignition system utilises very high

voltages. DO NOT touch any ignition components while the starter switch is turned on!

WARNING

Your vehicle has a higher ground clearance and, therefore, a higher centre of gravity than ordinary passenger cars. This will result in different handling characteristics. Inexperienced drivers should take additional care, particularly in off-road driving situations and when performing abrupt manoeuvres on unstable surfaces.

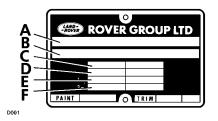

Introduction

VEHICLE IDENTIFICATION NUMBER (VIN)

If you need to communicate with a Land Rover dealer, you may be asked to quote the Vehicle Identification Number (VIN).

The VIN and recommended maximum vehicle weights (dependent on market) is stamped on a plate, located in the driver's footwell (this should also match the VIN recorded in the Service Porfolio book). The

In addition, as a deterrent to car thieves and to assist the police, the VIN is also stamped on a plate visible through the left side of the windscreen.

- A. Type approval
- B. Vehicle Identification Number (VIN)
- C. Gross vehicle weight (where required)
- **D.** Gross train weight (where required)
- E. Maximum front axle load (where required)
- F. Maximum rear axle load (where required)

NOTE: In the interests of safety, it is essential that the gross vehicle weight, gross train weight and axle loads are NOT exceeded. For further information see 'General data'.

ANTI-THEFT PRECAUTIONS

While it may be difficult to deter the 'professional' car thief, the majority of thefts are carried out by unskilled opportunists. Therefore, take vehicle security very seriously and ALWAYS adopt this simple 'five point' drill whenever you leave your vehicle - even for just a few minutes:

- Fully close all the windows and the sunroof (if fitted).
- Remove your valuable belongings (or hide them out of sight).
- Remove the starter key.
- Engage the steering lock (by slightly turning the wheel until it locks).
- · Lock all the doors and arm the alarm.

Thieves are attracted to 'vulnerable' vehicles. Even if you have followed the 'five point' drill, there is still much you can do to make your vehicle a less inviting target.

BE SAFE NOT SORRY!

- Park where your vehicle can easily be seen by householders and passers-by.
- At night, park in well lit areas and avoid deserted or dimly lit side streets.
- At home, if you have a garage, use it and NEVER leave the keys in the vehicle.
- Do not keep important vehicle documents (or spare keys) in the vehicle - these are a real bonus for the thief.

Introduction

IMPORTANT INFORMATION

Remember the breakdown safety code

If a breakdown occurs while travelling:-

- Wherever possible, consistent with road safety and traffic conditions, the vehicle should be moved off the main thoroughfare, preferably into a lay-by. If a breakdown occurs on a motorway, pull well over to the inside of the hard shoulder.
- · Switch on hazard lights.
- If possible, position a warning triangle or a flashing amber light at an appropriate distance from the vehicle to warn other traffic of the breakdown (note the legal requirements of some areas in this respect).
- Consider evacuating passengers through the nearside doors onto the verge as a precaution in case your Defender is struck by another vehicle
